Re: Lorina Parker <parker@pangetradio.com>

Lorina,

My issue is that people that have identified themselves as employees of the Renaissance Group are dumping large items in the south end of the alley between 6th and 7th street adjacent to the Cabrillo Hotel. I have provided you with photographic and verifiable evidence of the identity of one of the individuals. My understanding from our recent phone conversation regarding this activity is that you consider this violation of the municipal code to be a personal issue that you are not in a position to take any action on. Please confirm if this is your position... I do not want to misrepresent your position on this issue. If you would care to explain yourself (in writing) in greater detail regarding the point I am making above, it would be appreciated.

Lorina,
I am looking for email addresses for the members of RED.
You may know me as the individual that took great offense to the Red Report Night's event in trying to prevent it from returning to San Pedro.
My current project is trying to locate Eric Eschberg into providing sufficient dumpster capacity in the alley next to the Cabrillo hotel.
In spite of the documentation I have provided him, he doesn't seem to think there is a problem... except for people that took large items and drop them next to his dumpster.
I recently have been trying to document the large item drops and so far, the only people I have found that doing this are Employees of the Renaissance Group. I have observed two instances and have been able to document one, and in both cases when I talked to the perpetrators they said the worked for Renaissance. Since they both had key access to the basement of the Cabrillo Hotel, I find that explanation very believable. It appears that Eric is using San Pedro Clean to
The first shot below is one of Eric's employees dropping off a couch (he then drove up the alley and dropped the mattress in another dumpster). I personally observed at least one of the rolls of carpet in the foreground of the same shot came out of the back of a pickup truck driven by another of Eric's employees. The other shots are indication of how this alley has looked over the last year due to a lack of dumpster capacity and furniture and mattress "magically" appearing.

Mr. Eckler,
I wish it were that simple.
We have seen an increase in illegal dumping in the alley, the problem we have is that when we lock the dumpster people break the locks at night, **not to mention the furniture that magically appears**. But I don't need to tell you, your stuck looking at it as are we. Our plan is to install cameras and signage to try and catch the dumpers, until then, we do have employees checking and cleaning the alley. The bar does pay a recycler to take away their bottles, under normal circumstances the can is more than adequate, as it is emptied three times a week. We want to get a handle on this as much as you do, it's not good for anyone.
Thank You,
Eric
